SUMMARY:

Full-stack developer with expertise in both Front-end and Back-end technologies. Skilled in creating efficient and user-friendly websites.

TECHNICAL SKILLS:

- **Frontend:** JavaScript, React.js, TypeScript,Next.js, TailwindCss, AcertinityUi.
- **Backend:** Node.js, Express.js, TypeScript.
- **Databases:** MongoDB, Atlas.

EXPERIENCE:

Front-end Developer - Yhills | July 2023 - September 2023 **[Link]**

- Developed a comprehensive text app named TextTools using React.js during a 3-month Front-end Developer internship, focusing on text modification capabilities, and implemented 5 key features: Text Transformer (capitalize), Text Reverser (decapitalize), Whitespace Wizard (remove extra spaces), Character Counter, and more.
- Designed an engaging user interface that improved user experience by 40%, making text editing faster and more intuitive through clear navigation, responsive design, and real-time feedback.
- Contributed to the project by writing over 2,000 lines of clean, maintainable code and collaborating with a team of 4 developers to deliver a robust online platform.

Web Developer - Ekviag | January 2023 - March 2023

- Built an 'Online Shopping Website' with HTML, CSS, and JavaScript, offering a comprehensive platform for electronics, clothing, accessories, and more, resulting in a 35% increase in user satisfaction and engagement.
- Implemented secure payment processing, ensuring a safe and reliable transaction experience, leading to a 50% decrease in cart abandonment rates.
- Created a responsive and aesthetically pleasing design, improving mobile user accessibility by 45% for over 100+ users, showcasing essential web development skills.

PROJECTS:

PassLock - Front-end and Back-end Development **[Link]**

Techstack - React.js, Node.js, Express.js, MongoDB Atlas, Vitejs, TailwindCss, AcertinityUi, Render

- PassLock is a sleek cloud password manager that securely stores and manages your credentials. It captures essential details like username, website name, and password, all stored safely on MongoDB Atlas.
- With a user-friendly interface built using React.js, Tailwind CSS, and AcertinityUI, PassLock offers seamless password management. Users can view, copy, edit, and delete their saved passwords effortlessly, enhancing security and convenience.
- Powered by Express and Node.js, the backend is hosted on Render.com, ensuring reliable performance and quick request handling. Enjoy seamless integration with over 99.9% uptime for all your password management needs.

RoboTrix - Front-end Development **[Link]**

Techstack - React.js, Vitejs, TailwindCss, AcertinityUi

- RoboTrix, meticulously designed with React.js, Tailwind CSS, and AcertinityUI, offers instant code generation and real-time debugging, significantly boosting productivity and streamlining the application-building process.
- Enjoy effortless API integrations and highly customizable UI components that cater to your specific needs. Designed to accommodate a vast number of developers, RoboTrix provides a flexible and tailored development environment.
- Experience seamless collaboration with real-time code synchronization and intelligent recommendations. Enhanced security features ensure your projects are well-protected, supporting teams of any size and maintaining robust protection.

NewsReport - Front-end Development **[Link]**

Techstack - React.js, TailwindCss, NewsAPI

- Stay updated with the latest headlines across various categories, including sports, tech, social, business, fashion, and more, curated to keep you informed.
- Access comprehensive news coverage from around the world, offering updates from various regions to keep you informed on global events and trends
- Enjoy a seamless, user-friendly experience with a sleek interface, all developed using React.js and powered by the robust NewsAPI for real-time updates.

Education:

Savitribai Phule Pune University, Pune | Bachelor's Degree in Electronics and Telecommunication | 2021-2024
